## A Holy Week with the five senses

Did you see the data? This Holy Week we will record nearly 16 million car trips, 2 million train passengers, and 57,000 flights.

Take a deep breath and reflect on these figures. Do you need Travel Assistance Insurance? We think so... if you don't already have it.

### **If you are someone who enjoys your favourite sport while travelling...**

When you compete in popular races, climbing, rappelling, trekking or hiking, cycling or mountain biking, horseback riding, tennis or pop tennis, and others, or even water sports such as diving, surfing, windsurfing, or kayaking,... or winter sports such as skiing, cross-country trekking, snowboarding, snowmobiling, ice climbing, and more...

### **Or if you are someone who travels in Spain...**

You don't have to go far to enjoy a good holiday. Spain is a popular holiday planning

destination with a wide variety of noteworthy destinations.

### **Or maybe you are someone who likes to explore outside our borders...**

You have spent a lot of time preparing everything, looking for the place where you will stay, which sites or places you will visit, buying plane tickets... you can't risk everything for an unforeseen event.

These days of rest, change your daily routine, leave the stress behind, and enjoy your time. Explore with your eyes, breathe in the sea and mountain air, try new dishes and be affectionate with your loved ones. Plan a vacation with all five senses.

We take care that your Travel Assistance Insurance covers unforeseen events that may arise before or during the trip: health problems, luggage issues, accidents, extensions of stay or causes that prevent you from travelling... in short, there are many reasons to buy insurance. Ask us.

### **Did you know? You learn something new every day**

We explain three curiosities of Life Insurance that maybe you didn't know about.

1.- Compensation obtained by life insurance is NOT part of the deceased's inheritance. So, on one hand, inheritance will be processed (where assets, rights and obligations of the deceased will be distributed) and on the other hand, life insurance beneficiaries will have the right to receive the guaranteed amount.

2.- You can have several Life Insurance plans to cover as many beneficiaries as you would like. The same person can also be the beneficiary of several insurance plans.

3.- With Life Insurance there is no need to report on changes in health status. If your health gets worse, it cannot be considered as an aggravation in risk and they will be covered.

Do you have any more questions? Ask us.

### «Sunny sun, warm me up a little»

Spring has arrived with the feel of summer. After a relatively mild winter, discovering the sun again makes us want to take to the streets.

We feel like dressing more lightly and we have even taken out our flip flops. And for this climate, we change our habits. We go to the gym more, we go for walks a lot more, whether in the street, parks or natural places and we like to cool off on the terraces of bars and restaurants. But all this is accompanied by certain «dangers» that the Insurance Sector is no stranger to: colds due to changes in temperature, spring allergies, falls and physical injuries because we are working

hard to get into shape, getting food poisoning at restaurants, and other risks.

#### Faced with this, what can we do?

Health Insurance accompanies you on visits to specialists, whether for a common cold or for suffering from an allergy. Civil Liability Insurance will protect you against any contingency that you may suffer while enjoying an aperitif on your favourite terrace.

Good Accident Insurance will help you in the event of a bad fall while practicing sport.

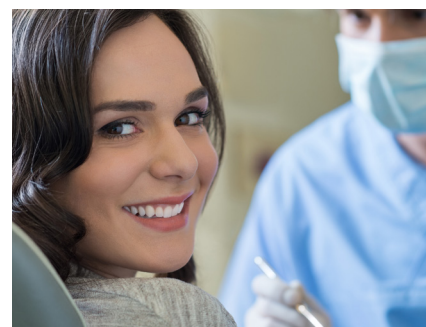

Go out, enjoy, make the most of your free time. At our Brokerage we will take care of the rest.

#### Recommendation

#### «We must take care of Number One first.»

Well, it is no longer necessary to compromise. And you don't know what you have until you lose it. Sometimes we need to in a relationship. But with our teeth we cannot compromise... and the bill from the dentist is better not to think about! It might even make you more uncomfortable than the treatment itself.

Dental Insurance solved this problem years ago. With a monthly fee, either individual or family, many treatments are included in your insurance and there is a discount for others. You can even opt for a co-payment where the most expensive assistance is reduced by up to 50% (implants, orthodontics, endodontics, etc.).

#### Investigation

#### «Frost in April ruins the harvest»: the Insurance Sector is the Agricultural Sector's best friend

Dead, dead, dead... After the freeze, frost and cold, fruit trees and plants die or flowers and leaves burn.

Last year, the greatest frosts recorded in the history of Spain occurred due to an arctic front.

If you work in agriculture, you must protect your crops with the appropriate coverage. Consult our Brokerage because we can help you study what insurance plan is best for you according to the type and time of cultivation. This is the only way to guarantee your income.
